

High Output Dimmable LED Linear Flex System

SUPERFLEX HCRI provides high quality and consistent light in a low-profile package. Custom lengths are made simple with designated cutting points. A self-adhesive 3M backing and push to fit connectors are designed for a quick and simple installation. SUPERFLEX HCRI is the perfect solution for interior applications requiring high light output while maintaining a low profile. Applications include cove, display, architectural accents, cabinet, and back lighting.

WIRING

UL / cUL Dimming and Non-dimming

Parallel Run Wiring

Multiple connections in parallel can be made provided that each section does not exceed the Max Run Length of the product and does not exceed Max Load on driver.
Example: 2 parallel connections x 66in lengths ≤ 11 total feet for Max Load determination equipped with 150W driver.
