Miniature Line Voltage Cove Fixture.

MODA MINI COVE INTERIOR is an award winning, patented, miniature line voltage cove lighting system. This powerful and efficient fixture comes with a choice of Standard Output at 502 lumens per foot or High Output, delivering an astonishing 1004 lumens per foot packaged in a small size of just 1 3/10" (33mm) tall. Unlike other fixtures, which are much larger in physical size, MINI COVE utilizes the latest Advanced MODA Design. With the incorporation of MODA LEDs, custom award winning MODA Phosphors, and Superior MODA Micro Drivers, fixtures are ensured to be cool to the touch, even at 1004 lumens per foot; A fixture which is so cool it can be held after days of illumination and is designed to exceed the life of many other similar looking fixtures. The L70 (longevity) of the fixture is extended and phosphor degradation kept to a minimum. All of this is achieved with the design of a forward thinking fixture coupled with intelligent driver technology and under driving the most advanced LEDs in the World, all made by MODA.

The Onboard MODA Dimming Chipset, programmed by our MODA Software Division with new Advanced Firmware ensures MINI COVE delivers smooth, no noise, flicker free and synchronized dimming down to 0%. Choose from either ELV or 0-10V direct Dimming fixtures. Unlike other fixtures in the marketplace there is no need to purchase additional adapters, converters, dimming boxes or control modules, just use conventional wiring direct from the dimming system to create a powerful lighting system, saving time and money. Link any combination of 6", 1ft, and 4ft fixtures and every fixture will dim together smoothly, synchronized from 100% to 0%. With no minimum run lengths, just one 6" fixture will dim seamlessly to 0%.

With MINI COVE the installer is able to achieve long single runs of up to 240 feet, decreasing the number of wiring circuits required in an installation. Another step forward in this category of small sized fixtures is the Universal power input. We designed a small MODA Micro Driver specific for MINI COVE, enabling it to accept 100-277v AC 50/60 Hz, thus decreasing the number of SKU's needed to be held by any of our worldwide distributors and giving the installer a choice of power inputs from one fixture. MINI COVE is smart and intelligent. The 0-10V version has an onboard microprocessor which detects input voltage and follows a smooth precise dimming curve dependent upon that voltage. If the voltage changes, no problem - MINI COVE will detect that change and follow a different dimming curve seamlessly, never giving off that it has made that change.

MODA is not limited to the LEDs available from the big die manufacturers. We gave up with them focusing on just making LEDs for the smart phone, television, and computer tablet market. We create our own dies specifically for the Lighting Specification Industry, making a revolutionary new standard for MODA offering a High Color Rendering Index of 96-98. R1-R15 tested to TM30-15 with values in excess of 95 to 99, creating beautiful cove illumination. When we make LEDs we only make one bin. We don't have that issue of so many bins so that every fixture will have the same CCT, characteristics and values. And we do not have the compromise of efficacy with many fixtures delivering 100 lm/w. Choose from our standard white light temperatures of 1800K, 2200K, 2700K, 3000K, 3500K, 4000K & 6500K. Colors and shades of reds, blues and greens look clean, crisp and sharp. 1800K is candle light. It is clean and crisp and renders colors precisely. 2200K is ideal for hospitality applications with its rich warm tones. 2200K no longer looks dull, dirty or "muddy". 2700K is an excellent example of incandescent-like illumination. Ideal for all applications which require a high quality incandescent look. Many of our clients choose 2700K as their go-to hospitality color. Our 3000K has often been described as one of the best looking 3000K in the industry. 3500K is the color which has now become our standard commercial application go to temperature, not being too neutral with a hint of warmth. 4000K is bright, precise, perfect for offices, commercial environments and retail. 6500K is a color which is often overlooked as it is so blue, but the difference with our 6500K is it is not blue as the clarity is correct. The CRI and TM30 values are correct. This is now a color which can be used as a mainstream color. Jewelry such as diamonds, silver and platinum looks outstanding full of luster and life. The High CRI, excellent R1-R15 values and excellent TM30 results for all of our color temperatures, which is our standard, creates great cove illumination no matter what color temperature is chosen.

modaLIGHT®

PRODUCT GUIDE

A specialized curved polymer optical lens combined with a cleverly designed Light Chamber delivers a light bending, smooth 200 degree beam pattern perfect for cove installations with no color over angle, no striations, interlocking fields of light, and without dark spots. The fixture incorporates an integral, patent pending, tool-less, self-locking bracket which slides into any position and turns 170 degrees. Built-in male & female connectors with thumb latch connections for fast installation time. Lightweight aluminum construction for durability and excellent thermal characteristics. Quality American Made electronic components. Available in a tiny 6 inch size (15cm) for tight turning coves and to finish a small space on the end of a run. Perfect for bending curves - link up to 320 fixtures in a single run. 1ft, 4ft and 8ft lengths are for fast installation, saving expensive labor installation costs and achieving long runs of quality illumination in rapid time. ELV fixtures can also be controlled by 0-10V devices using our MODA BRIDGE 1 or if your project has DMX controls these same fixtures can be also controlled by DMX using our MODA BRIDGE 3. This family is constantly evolving, developing and improving and has grown to become the go to COVE family for designers, architects, specifiers and engineers.

Tested by Intertek to UL1598 for use in USA & Canada. CE Approved. CCC Approved. WEE. RoHS Compliant. TM-30-15 Tested. US Patent No. D787,112 and D783,890.

Product Innovation Award (PIA) Winner 2016 for Best Luminaire. The LEDs used in this product won a Product Innovation Award (PIA) Winner 2018 for Components. LFI Innovation Award 2017 Finalist for Dynamic Color, Theatrical, Cove, Strips and Tape. Lux Award Commended for Interior Product of the Year 2016. Darc Awards Finalist for Best Architectural Lighting Product - Interior Luminaires 2016. International Design Excellence Award for Innovative Product Design Finalist 2016.

Designed & Developed by MODA LIGHT in Las Vegas, USA.

Angle Adjustment

Compatible Dimmers

- Grafik Eye QS with Grafik Eye GRX-TVI
- Legrand CD4FBLW
- Legrand LMRC-111
- Leviton IP710-DL
- Lutron Skylark SLV-600P

MODA MINI COVE MOUNTING TRACK

Mounting Mini Cove.

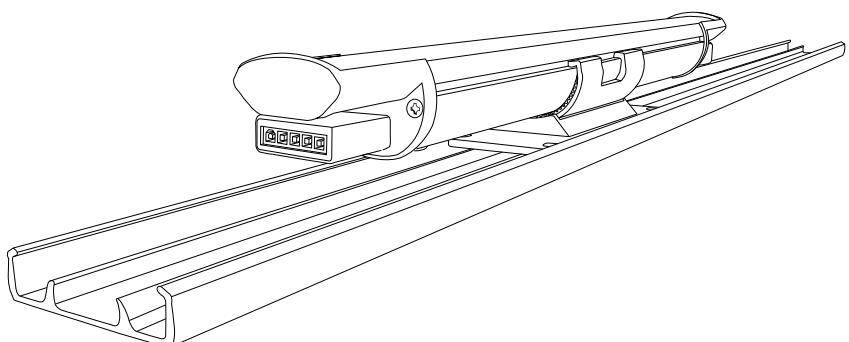

Allows users to install Moda Mini Cove fixtures in a continuous linear position. Moda Mini Cove Mounting Tracks come packaged in 5 pieces of 4ft sections to create a continuous run of 20ft.

Options

Finish G - Gray

Length 4ft - 4' Sections

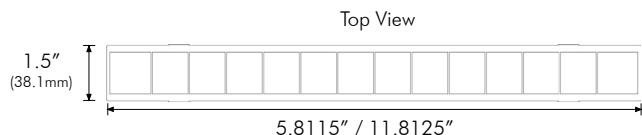

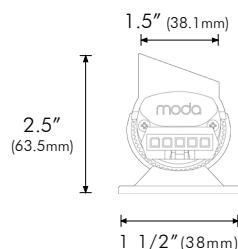

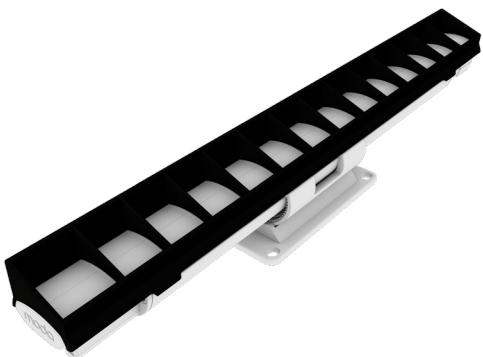

Quantity 5 Pieces (20ft)

Physical

Applications Cove, Accent

Construction Polycarbonate

MODA MINI COVE LOUVRES ASYMMETRIC

Asymmetric Mini Cove.

Provides light control and cutoff of glare for cove and wall grazing applications without causing significant light loss. For four foot fixtures use four of these louvres.

Options

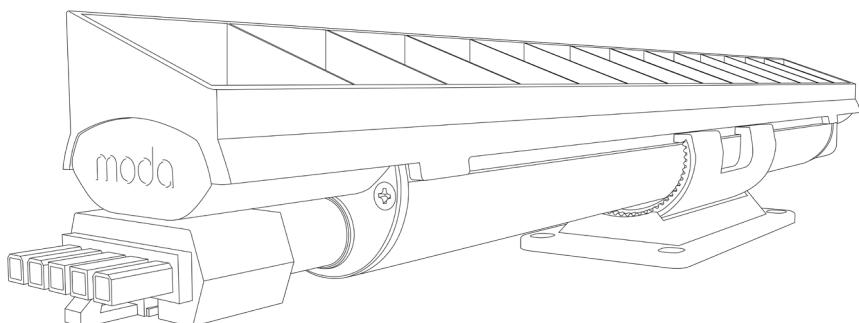

Finish B - BLACK

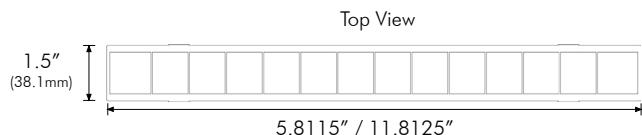

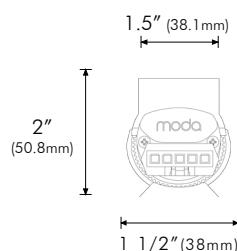

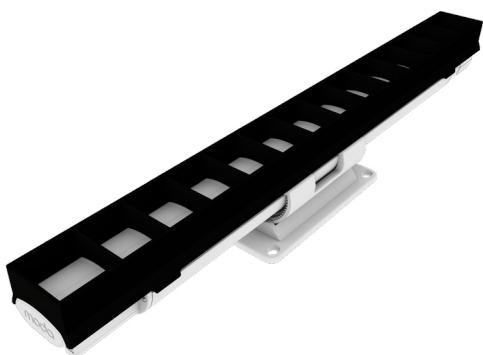

Length 1ft

Physical

Applications Cove, Accent, Graze

Construction ABS

MODA MINI COVE LOUVRES SYMMETRIC

Symmetric Mini Cove.

Provides light control and cutoff of glare for cove and wall grazing applications without causing significant light loss. For four foot fixtures use four of these louvres.

Options

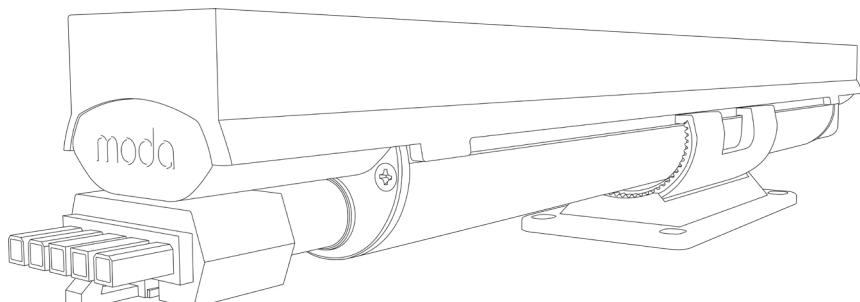

Finish B - BLACK

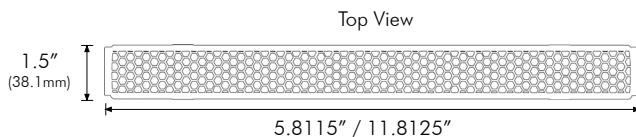

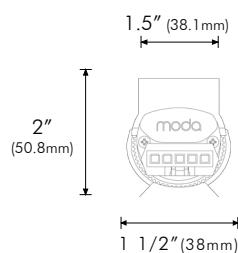

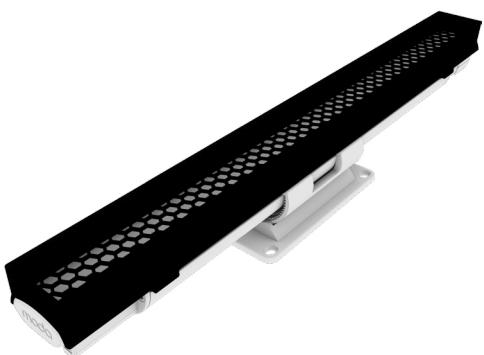

Length 1ft

Physical

Applications Cove, Accent, Graze

Construction ABS

MODA MINI COVE LOUVRES HONEYCOMB

Honeycomb Mini Cove.

Provides light control and cutoff of glare for cove and wall grazing semi direct view applications. For four foot fixtures use four of these louvres.

Options

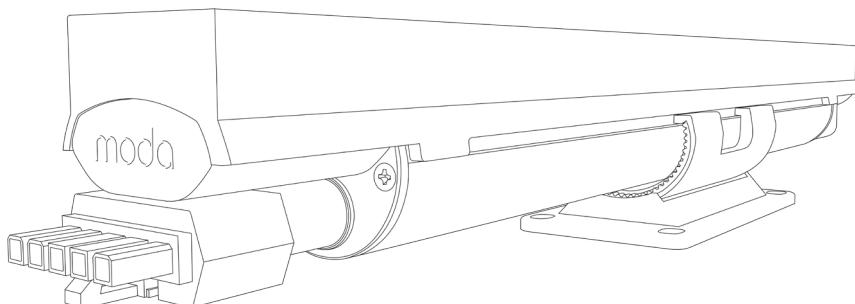

Finish B - BLACK

Length 1ft

Physical

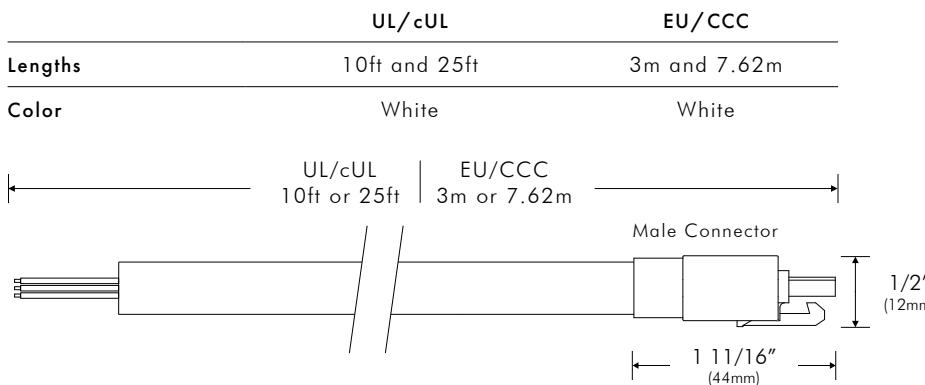

Applications Cove, Accent, Graze

Construction ABS
