MINIATURE LINE VOLTAGE COVE FIXTURE

MODA MINI COVE INTERIOR is an award winning, patented, miniature line voltage cove lighting system. This powerful and efficient fixture is available in two outputs, delivering up to 1004 lumens per foot in a small 1 3/10" (33mm) tall profile. MINI COVE uses the latest Advanced MODA Design; MODA LEDs, custom award winning MODA Phosphors, and Superior MODA Micro Drivers. Fixtures are cool to the touch, extending the LEDs useful life. This is all achieved with forward thinking fixture design coupled with intelligent driver technology and the most advanced LEDs in the industry, all made by MODA.

The MODA Dimming Chipset, programmed by our Software Division, ensures MINI COVE delivers smooth, quiet, flicker-free and synchronized dimming down to 0%. Choose either ELV or O-10V dimmable fixtures. Additional adapters, converters or control modules are not required. Link any combination of 6IN, 1FT, or 4FT units and every fixture will dim together smoothly, synchronized from 100% to 0%. With no minimum run lengths, one 6IN fixture will dim seamlessly to 0%. Achieve long single runs of up to 240 feet. A MODA Micro Driver, specifically designed for MINI COVE, accepts 100-277v AC 50/60 Hz.

A revolutionary new standard for MODA offers a High Color Rendering Index of 95-98, and is R1-R15 tested to TM30-15 with values in excess of 95. We make LEDs in only one bin. Every fixture has the same CCT, characteristics and values, providing beautiful consistent cove illumination. Efficacy is not compromised with many fixtures delivering 100 lm/w. Choose from our standard white light temperatures of 1800K, 2200K, 2700K, 3000K, 3500K, 4000K and 6500K. Every color looks clean, crisp and sharp. Even 1800K renders colors precisely and 6500K offers a clarity that prevents it from appearing blue. The High CRI, excellent R1-R15 values and excellent TM30 results for all MODA colors provides the highest quality cove illumination no matter the color temperature chosen.

A specialized curved polymer optical lens combined with a cleverly designed Light Chamber delivers a light bending, smooth 200 degree beam pattern perfect for cove installations with no color over angle, no striations, and without dark spots. The fixture incorporates an integral, patented, tool-less, self-locking bracket which slides into any position and adjusts to 170 degrees. Built-in male & female connectors with thumb latch connections offer fast and easy installation. Lightweight aluminum construction is durable with excellent thermal characteristics. Quality American Made electronic components. Available in a tiny 6IN size (15cm) for tight turning coves and to finish a small space at the end of a run. Perfect for bending curves - link up to 320 fixtures in a single run. 1FT and 4FT lengths provide fast installation, achieving long runs in rapid time. ELV fixtures may be controlled by O-10V devices using our MODA BRIDGE[®] 2.0. The breadth of the MINI COVE family makes these fixtures a favorite for designers, architects, engineers, and specifiers everywhere.

Tested by Intertek to UL1598 for use in USA & Canada. CE Approved. CCC Approved. WEE. RoHS Compliant. TM-30-15 Tested. US Patent Nos. D787,112 and D783,890.

Product Innovation Award (PIA) Winner 2016 for Best Luminaire. The LEDs used in this product won a Product Innovation Award (PIA) Winner 2018 for Components. LFI Innovation Award 2017 Finalist for Dynamic Color, Theatrical, Cove, Strips and Tape. Lux Award Commended for Interior Product of the Year 2016. Darc Awards Finalist for Best Architectural Lighting Product - Interior Luminaires 2016. International Design Excellence Award for Innovative Product Design Finalist 2016.

Designed & Developed by MODA LIGHT in Las Vegas, NV, USA.

Please visit our [website](#) for a list of compatible dimmers.

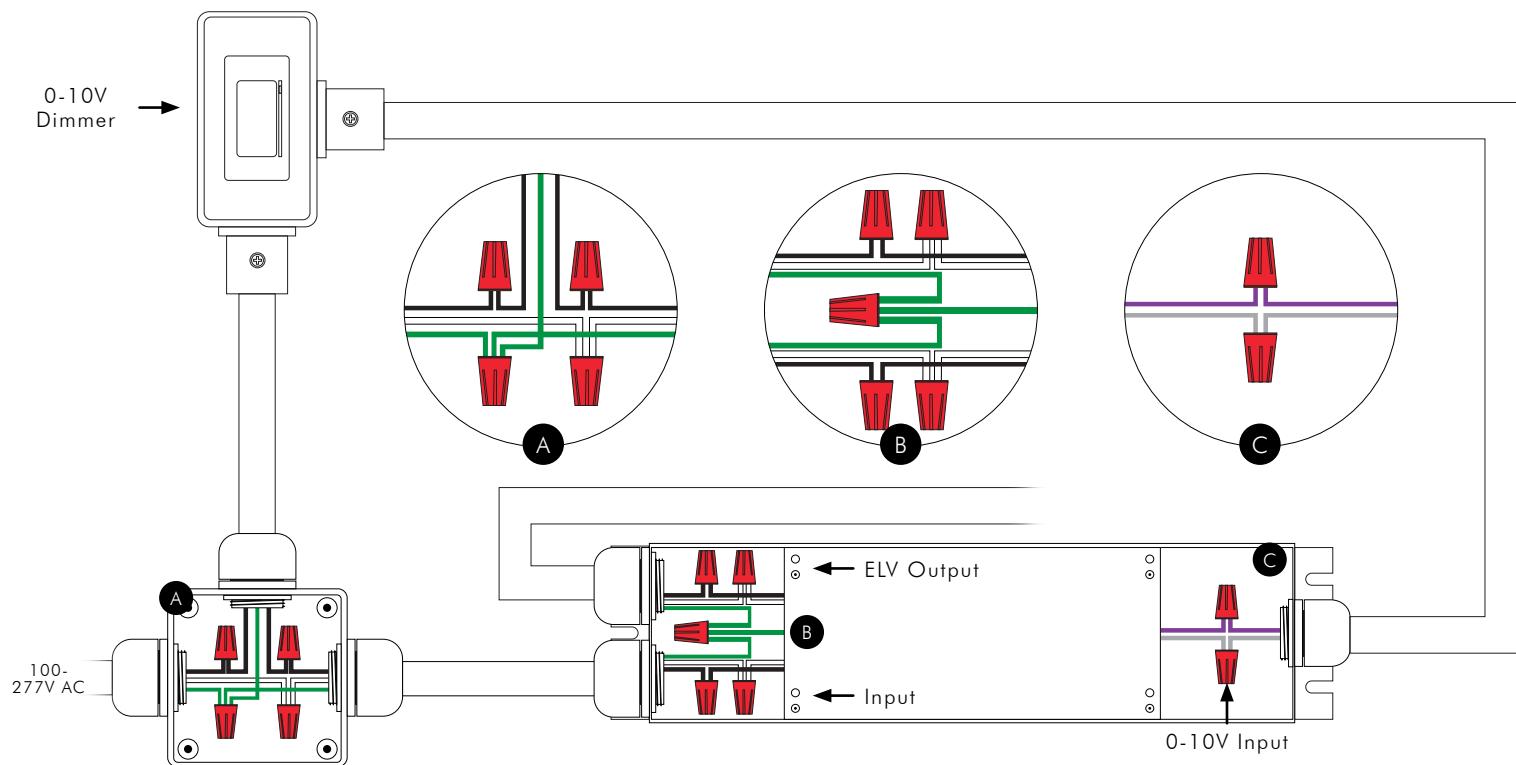

MODA BRIDGE¹ 2.0

CONVERTING 0-10V TO ELV

MODA BRIDGE¹ 2.0 accepts a standard 0-10V signal from most dimmers and dimming systems and internally converts this signal into an Electronic Low Voltage (ELV) signal, enabling 0-10V control of an ELV fixture. It is optimized to perform precise, smooth, flicker-free dimming down to 0%. Simple wiring with its integral 1/2" holes, which accepts liquid tight or interior conduit connectors. 100-277V 50/60 Hz input. Power up to 840W at 120V, 1600W at 230V, and 1900W at 277V. Wet Location IP65 rated and potted. Fully protected from surge, short circuit, open circuit and over temperature. Power Input and data interface protected with High Grade Surge Protection.

Use one MODA BRIDGE¹ 2.0 per run. Designed and developed by MODA LIGHT, Las Vegas USA.
