

RGB Side Emitting LED Flexible Linear System:

RGB EDGE is a premium version of the EDGE family. This model provides the same side emitting qualities with the ability to contour to the tightest radius as the EDGE family - only now it has a 3-in-1 RGB LED. Compatible with DMX512 and capable of producing 16.7 million color variations. RGB EDGE is field cuttable every 4in and supplied with 3M self adhesive backing for simple installation.

Parallel Run DMX Wiring

Multiple connections in parallel can be made provided that each section does not exceed the Max Run Length of the product and does not exceed Max Load on driver. Example: 2 parallel connections x 162in lengths \leq 27 total feet for Max Load determination.
